Schedule A

Arroyo Grande PD

All grant awards, including any adjustments to requested funding, were made by the Cannabis Grants Unit based on the merits of the Grant Application, scale of operation, and in accordance with the Request for Application (RFA) requirements and associated regulations. As a result, not all Project activities and items detailed in Schedule A are applicable. Refer to Schedule B - Detailed Budget Estimate for approved Budget line items and Project activities. Project activities and items that are not clearly identified/specified in the Grant Agreement must be submitted to and approved by CGU prior to purchase.

Project Description

Best practice strategies will be conducted to reduce the number of persons killed and injured in crashes involving alcohol and other primary crash factors. The funded strategies will include impaired driving enforcement, enforcement operations focusing on education. These strategies are designed to earn media attention thus enhancing the overall deterrent effect. Travel/training funds will be used to send officers to DRE training to further enforcement efforts.

Problem Statement & Proposed Solution

The City of Arroyo Grande currently hosts a resident population of approximately 18,380. However, the City experiences a significant increase in daily population and traffic due to employment, business and service providers located within Arroyo Grande. Additionally, the City's service population is also impacted by the cities immediately adjacent, making up the "Five Cities" area. The larger Five Cities area population is approximately 45,000 residents, not including the tourist population, which is estimated at approximately 35,000 a year. Because of the City's location situated half-way between Los Angeles and San Francisco, directly west of Bakersfield, near the beach and the Oceano Dunes Vehicular Recreation Area, significant increases in traffic, pedestrian and alcohol related incidents occur within the City's service area. Finally, the City has traditionally hosted several special events throughout the year, such as the Harvest Festival, Halloween, and Christmas in the Village, which also increase the number of driver's bicyclists and pedestrians on City roadways. With the resident, student, and transient tourist populations impacting the City's total service population, traffic crashes and traffic incidents have also increased over the last several years. Specific to the City of Arroyo Grande, alcohol involved traffic incidents are among the biggest threats to the community. These incidents do not consider factors such as age or economic status and affect the community as a whole thus law enforcement efforts need to target all drivers. The City of Arroyo Grande and the surrounding beach communities are a desirable destination for tourists and residents. In particular, the historic village area consists of numerous restaurants, shops, and bars. These qualities draw large crowds, both vehicular and pedestrian. The community is safer by reducing the number of DUI drivers on the City streets. An annual review of driving under the influence (DUI) crashes reveals that DUI incidents are usually increased during the end of summer vacation/Labor Day period, Memorial Day, Independence Day weekends and the holiday period (Thanksgiving through New Year's). Other times with identified DUI crimes and crashes include Halloween, Super Bowl Sunday, Cinco de Mayo, and local festivals/events. The Arroyo Grande Village (downtown area) has several new bars and restaurants which draw large numbers of people on weekend and holiday nights. In 2021, the Arroyo Grande Police Department made 156 DUI arrests, in 2022, AGPD made 209 DUI arrests, and in 2023 AGPD made 115 DUI arrests. Significant progress is made in reducing the frequency of DUI crimes and crashes when law enforcement agencies conduct awareness campaigns and enforcement efforts. In 2023, there were 46 injury traffic crashes in the City of Arroyo Grande, affecting 57 victims, and one fatal traffic crash affecting one victim. Additionally, 12 of these crashes were alcohol related, resulting in 16 injured victims.

While fatal crash numbers in Arroyo Grande remain low, averaging less than one per year over the last several years, the number of victims injured in crashes has increased over the past several years, with the exception of the two most recent calendar years. With a best practice and focused enforcement plan through the Selective Traffic Enforcement Program, the Arroyo Grande Police Department will be more successful in curbing the problems associated with intoxicated drivers. The Department has encouraged patrol officers and traffic officers to focus enforcement on reducing the alcohol as well as sending officers to advanced training such as ARIDE and DRE.
