Arroyo Grande CA 93420

What do you see as the objectives and goals of the advisory board, committee, or commission for which you are applying.

If elected to a committee or commission, I will bring a wealth of knowledge and expertise to the table. I have developed strong relationships with industry leaders and gained valuable insights into current trends and best practices. This knowledge allows me to provide meaningful input on key issues facing any advisory board, committee, or commission. Finally, I possess excellent problem-solving skills which enable me to quickly identify potential solutions to complex challenges.

I believe my greatest strengths are my ability to think strategically and objectively, my strong communication skills, and my commitment to collaboration. I'm also able to look at things from different angles and come up with creative solutions.

I'm committed to working collaboratively with other members of any board, committee, or commission. In my industry and everyday tasks, I truly understand how important a team effort is in order to make decisions and reach goals, so I strive to create that environment where all voices are heard and respected.

We often have different opinions about the direction of any topic. I like to remain professional when disagreeing, and value collaboration and respect other people's ideas. I would try to understand their perspective before presenting my own opinion.

I like to listen to and understand the perspective of everyone involved. Once I have heard everyone's opinion, I then like to take time to reflect on the issue and consider all possible solutions. I believe it is important to remain open-minded and respectful when discussing disagreements, as this helps me foster an environment of collaboration and trust.

Thank you for the opportunity and your consideration in serving the City of Arroyo Grande Board, Committee, and or Commission which I have applied for.

Best Regards,

Fernando Garcia III

Arroyo Grande, Ca
