Laurie Hamblin

This piece is titled, *46 and the Great Unknown*. I am submitting this work to be considered to be painted on one of the city's electrical boxes. I am an Arroyo Grande resident and I love my community. My hope is that this vibrantly colored piece will capture people's hearts and minds and inspire them. Not only to find the joy of painting or creating in their own ways but also to live fearlessly and excite a sense of exploration in our beautifully gifted coastline.

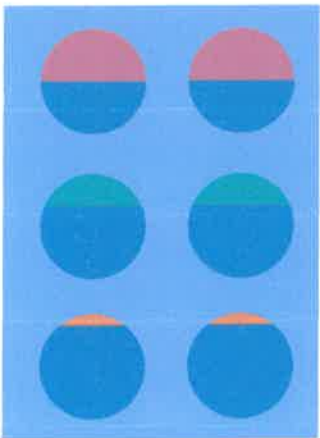

The piece has additional meaning to me, in that it actually is depicting a story my father always loved sharing with us, about his days of diving. How he found himself in a school of krill faced with the glory of a massive whale. It was an incredible story. Sadly, my father lost his battle with Alzheimer's early this month on 7/9/2022. It would be so special, if selected, to share his incredible story in this way, with the rest of my community to honor him.

I am fully prepared to adapt the painting to accommodate the dimensions of the given electrical box surfaces including top. Thank you so much for your time and consideration.
