Attachment to Advisory Commission Application
Anthony Luis

Please describe any background, training, education or interests that qualify you as an appointee

I am interested in serving my community by volunteering for the Planning Commission, Architectural Review Committee, or special committee/subcommittee.

I am a fifth-generation SLO County resident and have lived in and around Arroyo Grande for nearly my whole life, currently raising a family with school-aged children. I was fortunate to move back in 2013 and build a home here after five years away – going through the Planning Commission and the Architectural Review Committee in the process. Professionally, I am an Advanced Certified Property Tax Appraiser with experience appraising buildings of various architectural styles as well as experience reviewing land use and development codes. I have worked for the Santa Barbara County Assessor's Office since 2007, currently as an Appraisal Division Manager. Before that, I worked in Arroyo Grande for my mother, a real estate agent, for six years.

I enjoy the quality of life in Arroyo Grande and hope to lend my hand to help that continue. I believe that my personal and professional experience gives me a unique perspective that would be a valuable asset to the City.

I have been a resident of South County for 20 years, Arroyo Grande
for 12 years. I care deeply about our community and
the children and families who live here. As a teacher and
a parent, I want our city to be supportive of children + families.
(Please attach additional pages if necessary) As the daughter of 2 elderly parents
who are also residents of Arroyo Grande, I also want to
ensure that our city is meeting the needs of our older
residents.

Community involvement:

I have been volunteering for non-profits and "good causes" since my early adulthood. Most of these activities took place in Denver where I was involved in numerous non-profits but a favorite was The Park People, a foundation that raised money to refurbish Denver's parks. I was vice-president when we moved to San Francisco. There, I was involved in a number of civic projects and non-profits but the main one was the ARCS (Achievement Rewards for College Scientists) Foundation, Inc., an organization that raises money to fund meritorious Ph.D. candidates in the sciences in the major Northern California universities and where I served in most offices and as president for two years. The group had 200 members at the time and creates a million dollars a year for this purpose.

Arriving in Arroyo Grande several years ago, we had hardly had a chance to settle in before the lockdown stuck which has limited the opportunities. I did however initiate a newsletter for our homeowners' association and we have been frequent donors for several critical non-profits in this time. I am looking forward to more participation in this arena.

Background:

I have a B.A. degree in education from the University of Denver and taught in the Denver schools for one year before being retired by my children. Later, I did reporting for The Denver Post for six years covering the City of Aurora where I later became the Community and Media Relations person for ten years. After that, I formed a public relations consultancy firm with two partners and worked there until our move to San Francisco in 1989.

I think my long participation in non-profits of all kinds lends an appreciation of their work and their challenges. My leadership roles have given me true appreciation for the work of volunteers and the need to keep opportunities open for new people to join the efforts, something that is more difficult in these times—even when the needs are greater in many ways.

I would welcome the opportunity to serve on the Community Service Grant Committee.
