Subject: Dish Wireless Proposal
Date: Friday, February 3, 2023 6:31:51 PM

We want to go on record that we are against the use permit to establish a new telecommunications facility at 581 Branch Mill Road in the middle of a agriculture field that is surrounded by housing developments on three sides. How could something like this even be considered.

It will lower the value of all of our homes and will effect the view of the other fields and hills in the distance. Not to mention the potential harm to humans living near cell towers. The road supports lots of traffic and is the main route to Branch School.

There must be a better place for this project. On the hill off Branch Mill and Huebner Lane which has a city owned water tank would be a more appropriate location. The project must be denied at this proposed location.
