All requirements listed below must be met or the application will be removed from consideration.

1. Completed Application Form.
2. A concept drawing that shows all four sides and top of the utility box must be included with the application. 3. Specifications on materials and/or program used to design artwork.
4. An Artist Statement (2,000 characters maximum) that describes why the artist is interested in designing an artwork on a utility box, previous experience working on public art projects with supporting materials as examples of other works and reviews of similar work, and how the artist believes the art will transform the street and/or enliven the area.
5. A resume that includes exhibition history, past projects, or a brief description of cooperative, community-based projects, if any (four pages maximum).
6. A maximum of 3 examples of previous work including a brief description.
7. Submit three references that can speak to previous art works.

4. Artist's statement:

As a local to the area I am often inspired by the painted utility boxes that I see when I'm driving, and often wish I could contribute. The two designs I have submitted will compliment the beauty of Arroyo Grande as a reminder of the rich agriculture and the lovely naturally occurring biodiversity.

I have painted the pismo clams numerous times, and enjoy the rotation of seasonal art they display. I usually complete them within 2 days, as requested by the city of Pismo Beach. Public art has such a positive impact on our community, as when they are painted they become mini landmarks for the community to enjoy. I would be honored for the opportunity to apply my art on a utility box.

3. Specifications and program used to create design:

I created these designs using the procreate app on my iPad, by screen-shooting the template, opening up the screenshot in the app and drawing on the template with an apple pencil.

8. Timetable

I estimate that the painting of one utility box can be completed within the timespan of a week.
